## Services

### Live Music And DJ Booking

We have an expansive and diverse roster of professional live musicians and DJs to help any venue, event, or festival truly enhance their customer experience. Live music is proven to increase revenue for the venues by keeping patrons entertained and engaged. Our three pillars of service include:

**Management of all aspects of the bookings including in-depth SOPs for the artists to ensure smooth gigs and transitions.**

**Full communications with all artists both leading up to booking and day of the performance. Including handling any last-minute artists' substitutions due to unforeseen schedule changes.**

**We manage all billing and tax liabilities making it easy for venues to pay only the Vendor, rather than billing many in a rotating roster**

### Event Production

Music Bureau is a full-service event production and planning company committed to crafting unique and unforgettable experiences.
